

COMMENTS

Codes and ordinances should
be same for city and county
within urban growth
boundary

Additional comments can be written on the back side of this card. Thank you!

COMMENTS

The City should adopt a bicycle
positive approach to travel in
the city by physically separating
bikes from cars, more bike lanes
rebates for customers to purchase
electric bikes or other alternatives

Additional comments can be written on the back side of this card. Thank you!

to driving a car in the city.
Prioritize people over cars.

COMMENTS

The City should identify Areas
where a moderate sized solar
field could be built - such as
the City Property on Sunset Mesa
that was once a solid pit.

Additional comments can be written on the back side of this card. Thank you!

COMMENTS

The building department should
Adopt An Incentive program
for building permits that help
to reduce Green House Gases
ie \$500 off the permit with solar
array or 2kw minimum, \$200 off if people
install heat pumps for minimum of 2000

Additional comments can be written on the back side of this card. Thank you!

\$50 off to install an induction stove
\$100 for heat pump water heater etc.

This incentive structure would
encourage to electrify their home
and reduce GHG emissions while
allowing all building options to be
built but at a higher cost.

COMMENTS

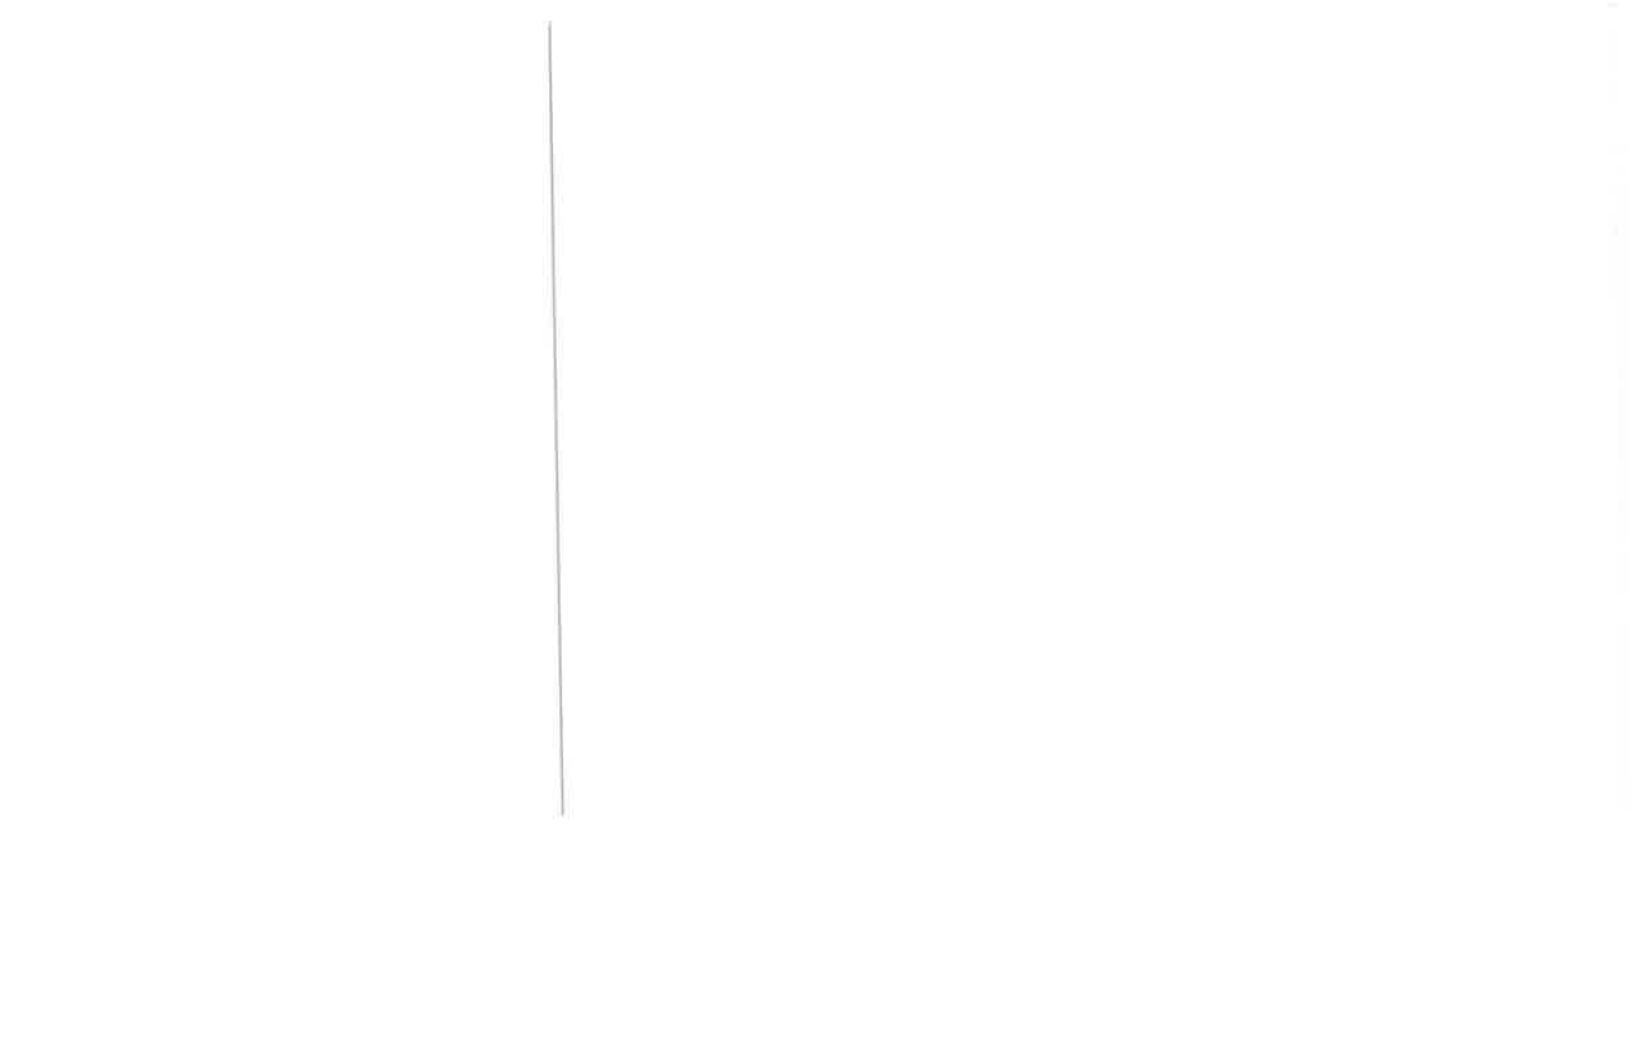

The City should ~~again~~ incentivize
ADU's in the permitting
process, i.e

Additional comments can be written on the back side of this card. Thank you!

COMMENTS

The City Should Adopt A
maximum # of Air BNB
homes, license them +
prohibit anybody that does
not have a permit to host
people in their BNB on a temporary
basis

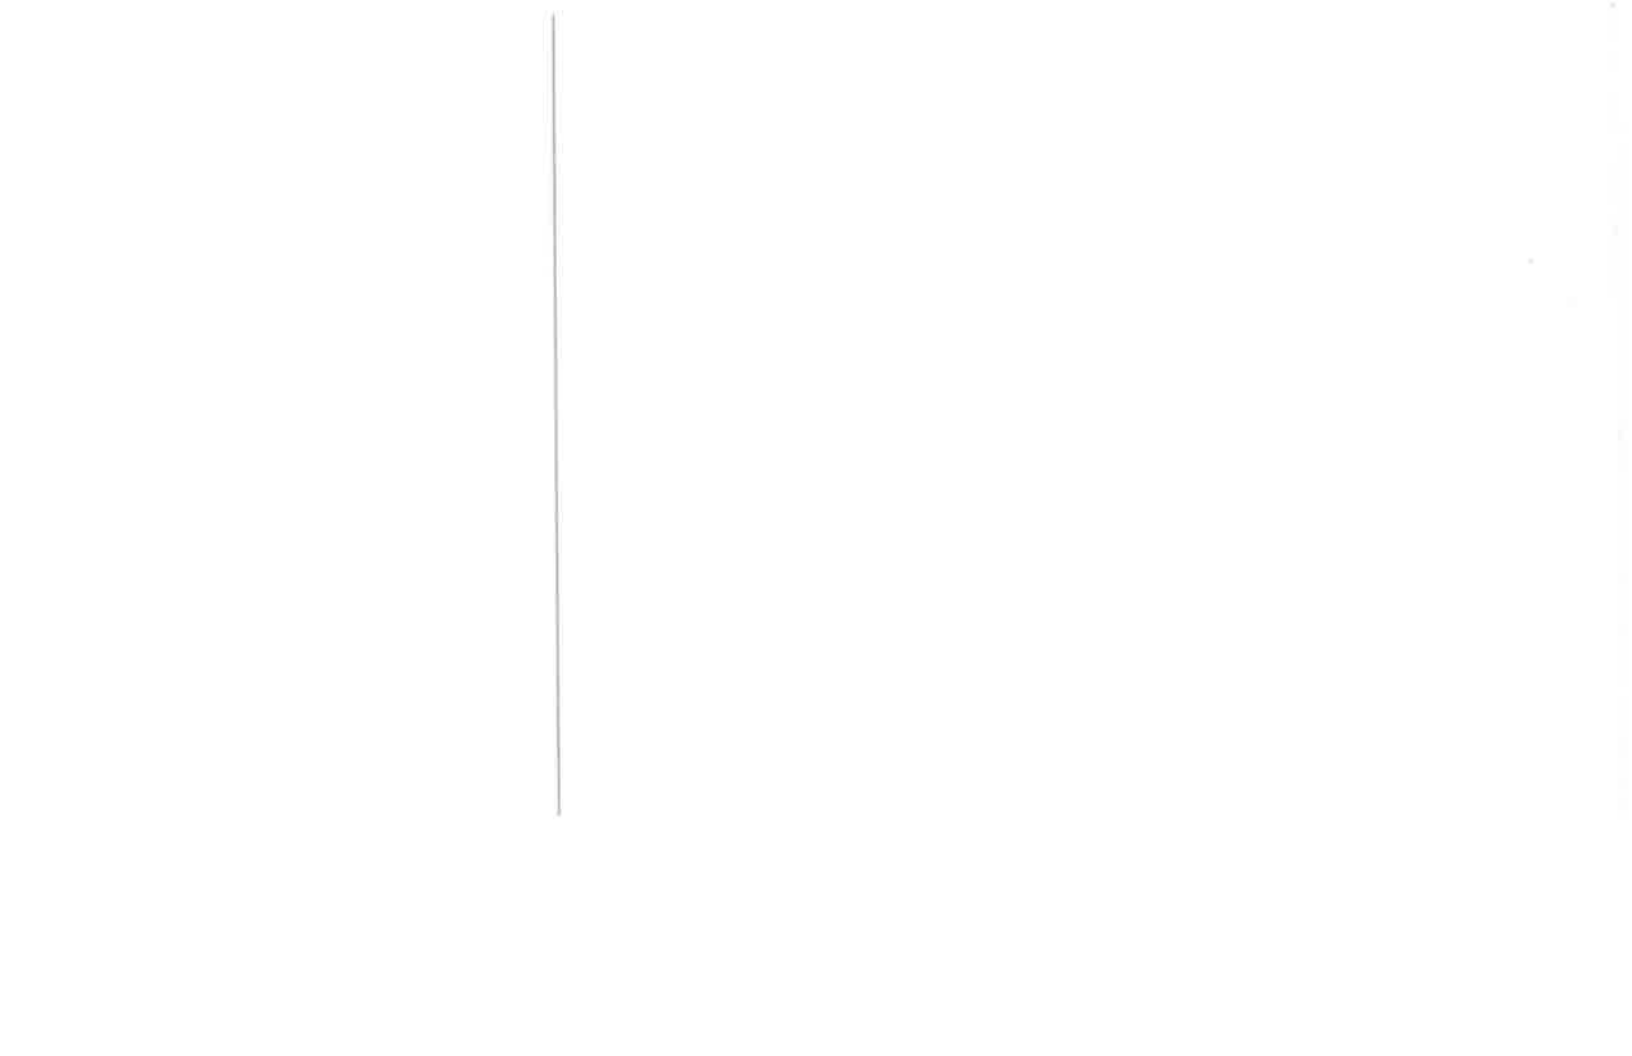

Additional comments can be written on the back side of this card. Thank you!

55+ COMMUNITIES WITH A COMMUNITY
CENTER, ATTACHED/SEMI-ATTACHED
AND/OR SINGLE HOUSING UNITS. DESIGNED
FOR RETIREES.

Additional comments can be written on the back side of this card. Thank you!

COMMENTS

As there any way
to address what is
happening to the downtown
are? Specifically the B $\frac{1}{2}$ B's
in the small houses
which families might afford
